

DISCOUNTED FLEET PROGRAM 2021

Business | Corporate | Municipal

Our Fleet Program is designed to keep your fleet vehicles clean, shiny, and protected all at a very **low cost**. It requires **minimal effort** on your part or that of your staff. Join today to save time and money and make a **great reflection** on yourself and your company!

HOW IT WORKS: RFID tags (bar coded small stickers) are placed on the vehicle windshield. When the vehicle pulls up to the pay station area into the dedicated express lane, an electronic eye will read the bar code sticker and the gate arm will immediately open, thereby allowing your driver to have prompt access into the car wash tunnel. A complete wash takes only about 4 minutes, thereby saving your company valuable time and money.

PRICING: The pricing of the Fleet Program is significantly discounted from that of the standard retail value of a car wash. Two pricing options are available; The “Launch Pad” which is the basic wash package for our superior hi-tech wash and our premium wash package “Shoot the Moon” which features our Glisten n’ Gleam Ceramic Wax. Please see website for more details on each wash type.

REPORTING: Detailed reports on the number of washes by vehicle are available upon request.

ALL WASHES COME WITH FREE VACUUMS, TOWEL USE AND MAT CLEANERS
